

Desert moon

Desert winds blow...

I Loved you so

Desert winds blow

Baby I know...

Other voices took hold —

Voices took hold

Could have done everything

I would have done any thing

For just one more night —

would get it all right...

Desert moon Glows

I'll miss you my dear —

You'll never know

How I Loved you so

Desert moon Glow

You'll never show your Fear

So you let me go —

cry in my Arms

I'll hold you close —

Feeling your thro us

Roll shoulder...

Voices took hold

Carrying her —

The Flame is out

the Flame!!

The Flame!
